The Provincial Police want to keep you right on the 1943 car markers, and it must be on the back of the car with no marker shown on the front. Some cars are carrying last year's license plate on the front and this year's on the back of their cars. The police say take the front one off. You wish to avoid prosecution.

EASTER?

Just what, my friend, does Easter mean? To you or me, will we be seen With those who stand for all that's right? To fight for freedom day and night. The sun will rise on Easter Morn To prove that He who died, was born To give us, in our inmost soul A sense of justice, and a goal For which to live.

EASTER GREETINGS!

Easter brings us hard-boiled eggs, rabbits, flowers, hot cross buns and Easter cards. Strangely enough, most of these present-day objects and customs had their birth so far back in antiquity that digging into records for origins and birthplaces is like trying to dig a well in quick-sand.

The name Easter itself comes from the name of the old pagan Saxon goddess of spring Ostara, or Eostre. In their spring-time celebrations each year, the early Saxons deified the lowly rabbit which, because of its conjugal habits, was considered to be the symbol of fecundity. Thus the little chocolate rabbits one sees in the candy-store windows at Easter.

The egg goes much further back in the annals of human history. Ancient Egyptians first started the custom of painting eggs at Easter. In China, the egg has always been the symbol of life eternal. Even today, the Chinese venerate the egg, and the older the egg the more they venerate it—which might be considered as carrying ancestor-worship a little too far.

Easter lilies were originally Egyptian and had a major part in all springtime religious celebrations. It is known that in the excavations at Herculaneum in Rome two fossilised hot cross buns were found complete and intact in a buried oven. Their remarkable state of preservation is not very flattering to the skill of the Roman housewife who baked them.

Even the Easter greeting card, which might justly have been called an English invention, is found to have its origin in the multi-coloured eggs which the Russian peasants passed around at Easter. Each egg had painted on it a few words of greeting and good wishes.

Truly, there is nothing new under the sun. Perhaps even the astounding hats worn by the modern Miss at Easter had their counterpart in Ancient Rome or far Cathay!

OUR NEW SYNTHETIC RUBBER

Rubber after the war will not be grown in plantations as it has been for years past.

Chemical laboratories and huge factories will produce more and better rubber than has ever been made from the natural home grown products.

Some very misleading statements have been made about synthetic rubber since the yellow men took over Singapore. Much of the rubber used in the last war was a brand of synthetic called Buna rubber, which proved such a poor substitute that it was discarded.

It was not long until chemical research provided us with a quality much superior to the old Buna, and if the rubber monopoly had not suppressed the production of synthetic in the democratic countries no shortage would have your car or mine off the road.

North America consumed before the war approximately 700,000 tons of natural rubber, the bulk of which was used for tires. Our mileage depended on the quality of the

roads, care of the tires, and original quality of the material in the tire.

It is estimated by engineers and chemists that 1944 will see the production up to pre-war level, and 1945 will produce one billion tons.

These new tires will be much more serviceable, and inner tubes made from synthetic will only require extra inflation about twice a year to keep a given pressure, as no loss occurs through the tube.

Today, tests on some cars have proved that as many as 100,000 miles can be claimed for this new rubber.

The future for the car owner is considered very bright, because the perfected new synthetic tire will outlast the life of the car. What possibilities the future holds for this new rubber.

Any quality can be secured, according to the formula used. It can be made soft or hard, ridged or elastic, at the will of the processor.

We are not idly prophesying when we say that by the time we get the Japs rounded up there will be sufficient rubber surplus to hang each one separately.

COLLECTIVE TYRANNY

Now that the battle is over, and the Collective bargaining Bill is as good as passed, it might be well for the workers to consider how they are affected by it. Not that they can do anything about it; but in order that they might know what position they are in, what is expected of them, and what will happen to them if they transgress. This applies to all who work for wages or salary. The editor of a newspaper is covered just as much as the reporter, the stenographer, the salesman, the mechanic or the jack of all trades. The only workers exempt are farm hands, domestic, policemen and Hydro employees.

Anyone listening to the representations of the union leaders before the Committee would have thought that the purpose of the legislation was to bring the ill-disposed and unfair employer to his senses, and compel him to respect the rights of labour. But when one examines their requests in detail, most of which have been embodied in the bill, one is forced to the conclusion that the wily attack on the employers was only a smoke screen to conceal the real objective. That objective was, not to put the employer in a straight jacket, but to deliver the worker, bound and gagged into the hands of the union.

Consider a few of the things the bill does to the workers. It gives union officials power:-

- 1.—To deprive the worker of the right to make a bargain with his employer.
- 2.—To deprive the worker of the right to join with other workers of his choice, and bargain collectively with their employer.
- 3.—To force the worker to join the union to which 51 per cent of his fellows belong.
- 4.—To force the worker to submit to any agreement the 51 per cent may choose to make for him.
- 5.—To force the employer to dismiss any worker who fails to join the union.
- 6.—To force the employer to deduct money from the worker's wages and hand it over to the union with or without the worker's consent.
- 7.—To deny the worker the right to work at his trade or vocation, save by the grace of union officials.
- 8.—To deny the worker any effective control over the officials of the union to which he is forced to contribute.

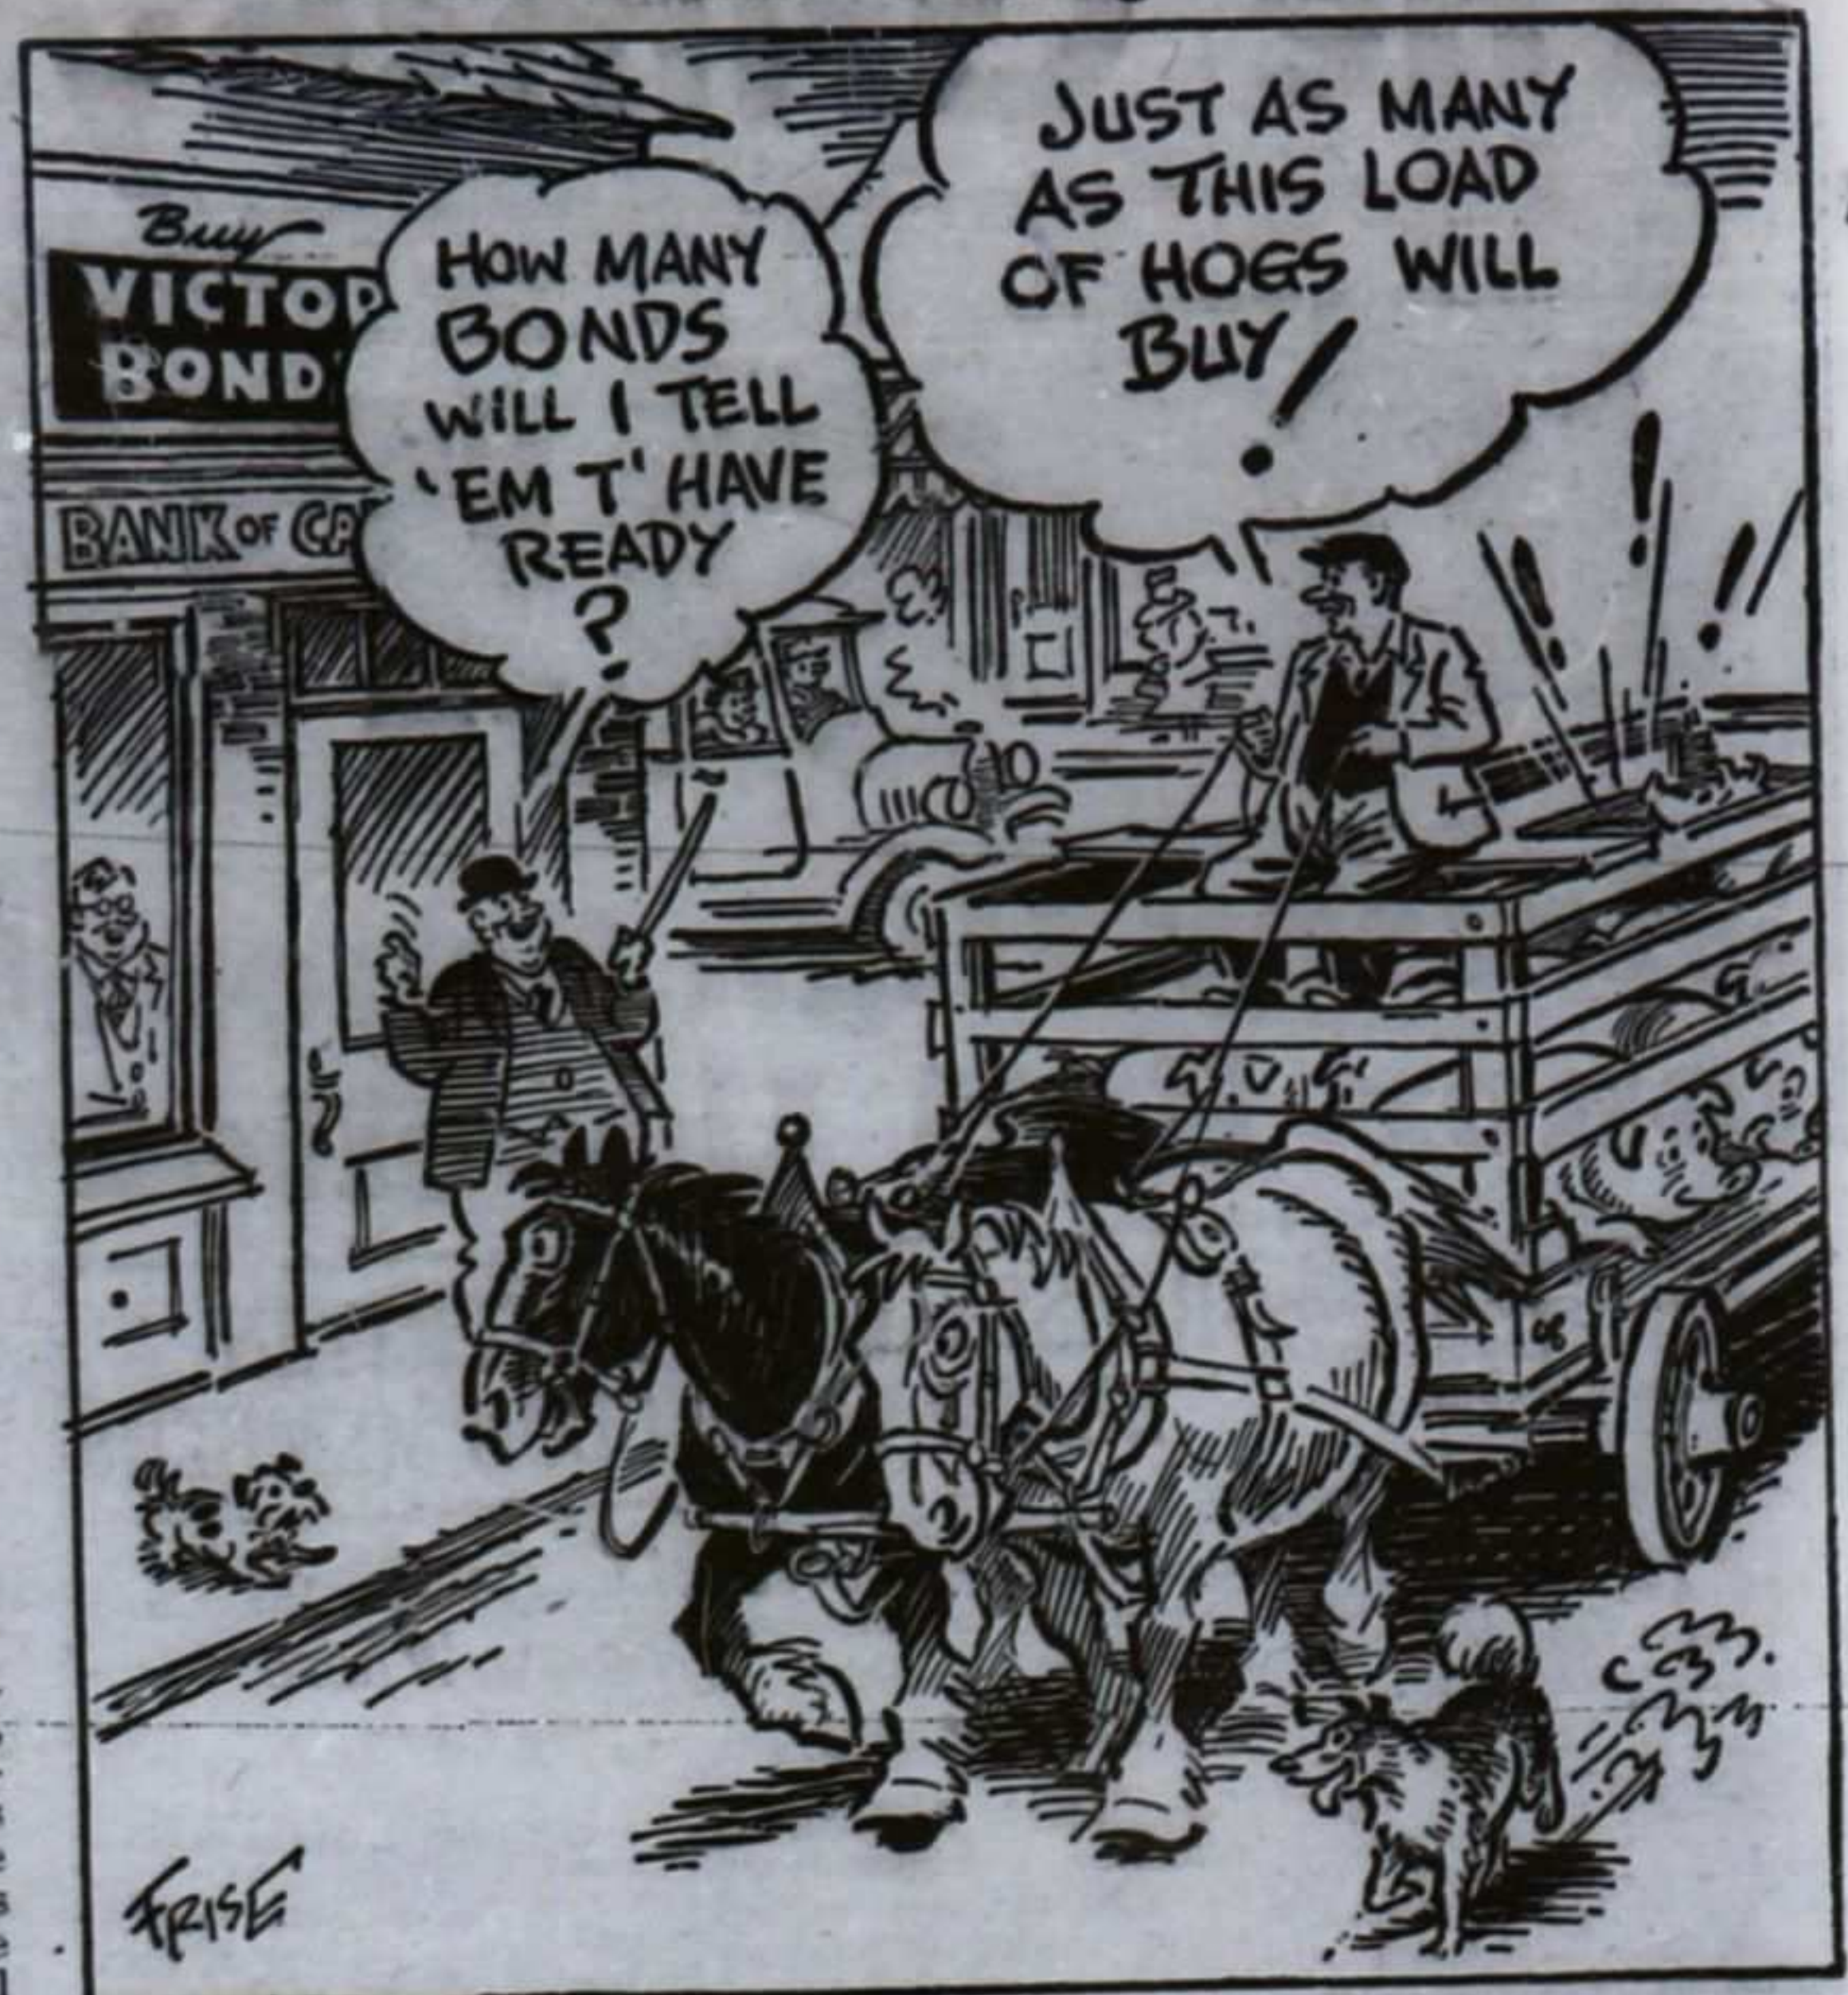

All these things can be done to the workman under this bill, in spite of the fact that, according to Gallup poll, 89 per cent of the people of Canada believe that every worker should be free to join a union, or refrain from joining a union, as he sees fit, and 72 per cent of union members hold the same view.

Some employers think they are being unfairly dealt with by this bill. Perhaps they are; but the real crime is being committed against the working man. It is being committed by those who claim to be his friends; and in this bill, the employers are being forced to become the instrument of that crime.

Penned and Pilfered

This is probably the story to end all stories about sugar rationing, but we like it because it's true. There's a man in the RCA building who lunches every day in one of the building who lunches every day in one of the Center restaurants. We sat down beside him the other day and saw him carefully pocket the one lump of sugar that came with his coffee. "You see," he explained, "I'm taking it for a horse. It's just a delivery horse but I've become very much attached to him and every day he looks for a lump of sugar. I can understand sugar rationing so I can go without it, but the horse couldn't. He'd think I was mad at him or something."—Rockefeller Center Magazine.

Away Back When

Frank Fairborn, Jr.

This week I am culling a lot of interesting items from a copy of The Independent of October 8th, 1885—58 years ago—or just one week before the late Jas. A. Livingston purchased the paper from H. H. Meagher who established it the first of July that year. Among the advertisers in that issue were: E. E. Loosley, merchant tailor; S. Whittaker, boots and shoes; McClure and Hearle, dry goods and staples; W. K. Secor, Winona, groceries; W. Forbes, groceries and chinaware; Alfred Sturch, agent for Daisy Churns; V. H. Carpenter, baskets and berry crates; Henry and Oldman, Beamsville, groceries and patent medicines; H. E. Nelles, conveyancer and commissioner, also Postmaster; W. V. Hare, local agent Royal Insurance Co.; F. Hansel, dentist; Teeter and Snyder, carpenters and joiners; E. M. Mibell, stoves and tinware. Here is a sample of high pressure advertising as used by a Hamilton firm.

Notice To The Public

I do not require to ring a bell to get customers, nor trot out an Elephant; neither do I sell at half price nor give away pumpkin seeds. But I sell cheap for cash only and give the worth of the money every time.

People come from far and near,
And don't begrudge the fare,
For they are sure to get their money's worth
On the Market Square.

Willis W. Beamer was poundkeeper for North Grimsby and was advertising the fact that he had impounded, and was offering for sale 20 sheep marked with red paint on the back of the neck. The owner probably claimed them before the sale took place.

P. S. Kemp gives notice that he has sold his business and leased his bakery to Joseph C. Worden and is removing from Grimsby. Some bold bad person with the intent of hurting the reputation of the healthy people of the village had been spreading rumors of a smallpox outbreak in the vicinity, which were vigorously denied by The Independent.

Jack VanDyke was staging several special features at the Roller Rink. In the vicinity of the Presbyterian church there was owned a leghorn rooster that it was claimed could jump five feet five inches into the air and pluck a grape from off the vine. Some rooster.

Beamsville fair was held on Wednesday, October 7th, and from reading the account of this exhibition we are firmly convinced that the men that wrote the story was a very highly educated gent, indeed. Here is part of his story:-

The sun which went down, dripping with the outflow of angry clouds on Tuesday night, rose again on Wednesday above a horizon which outlined a clear day, but a bleak, autumnal morn, chilly and comfortless. With marrow almost congealed the hundreds of visitors joyfully heard the dinner-bell, and eagerly ruble through the heated corridor to the hospitalities of this, that and the other hotel dining rooms. Toward the fair grounds rushed hundreds of people at 10 o'clock. The sun had risen into autumn amplitude. Every leaf shone with the varnish of God's heavy rains of the night before. A bright, crisp, cooling breeze blew through the town cheerily. Everybody moved toward the common centre. Here were crowds and clouds. There were many bliss, a few children and hundreds of spectators joked and pressed and crowded in close company, and as the afternoon wore on the number of

visitors increased between twelve and eighteen hundred being present.

Wednesday, September 30th, 1885, was wedding day in Grimsby. Read what the Ed. had to say:-

Our quiet, aristocratic village was thrown into a flutter of excitement on Wednesday morning last, on the occasion of the marriage of two well known young ladies who have been in our midst from childhood up. The first of the weddings was performed at the Wesleyan Methodist church, the contracting parties being Miss Minnie Hawk and Mr. Charles Bishop. The ceremony was performed by a brother of the groom, the Rev. Mr. Bishop, assisted by the Rev. R. R. Maitland. A large assemblage of friends and acquaintances were present to witness the ceremony. The bride wore dark green and looked very pretty. The couple left for the west to spend the honeymoon, but their many friends at home hope that when they return much the larger portion will be yet to the good, for they are much esteemed by those who know them best, and the Independent joins heartily with their friends in wishing them fair weather and smooth sailing down the stream of life.

At two o'clock another ceremony of the same kind was performed at the Episcopal church by the Rev. Dr. Reid. Miss H. Huthven, cousin of Dr. Alexander, was married to Mr. Alfred Ball, of Niagara. A large number of the fair sex were present. The bride was attired in cream satin and looked very handsome. The happy couple have the good wishes of all who have the pleasure of their acquaintance, and the Independent takes pleasure in wishing them a good share of all the good things of this earth.

W. Scott Mariatt has revised his papers for his patent gate, and we feel safe in stating that a neater nor a better constructed gate was ever placed before the public. You never have to leave the carriage to open or close the gate; it is opened and closed by means of a trip-hinge or throw-crank, which is worked by the wheel off the carriage passing over the trip. The great advantage of this gate is that your horse is never stopped to pass in or out, and is perfectly noiseless. This hinge can be worked on any gate.

The Canals Highway

(By Hazel McEwan, in Public School Argus)

Canalska, Athabaska, Dawson City, Nor'e!
Do they thrill you? they thrill me, and call your feet to roam!
Athabaska, Canalska, Dawson City, Nome!
They stir longings in my very heart for ways I've never known.
Canalska, Athabaska, Peace and Yukon, too!
The new road shows to heathen men what Christian men can do;
It's a symbol and a warning to that black-hearted race
That drives a dagger in your heart while smiling in your face.
Oh, the Canalska Highway leads to far Attu,
To Dutch Harbor and the Aleutians in a sea more grey than blue.
For 1,600 mountain miles, from the prairie to the sea,
It's the road that Freedom travels that the helpless may be free.
Canalska, Athabaska, White Horse and Great Bear,
Mackenzie and the Yellowknife—they're all up there!
There's music in those lovely names—can't you hear them call?
But the Canalska Highway is the loveliest of all.

The people who try to do more work and get better results than is expected of them, stand the best chance to get the promotions and wage advances and new opportunities.

A Thought For Easter Day, 1943

"We greatly need the cheer of this precious Easter truth. We make too little of the place our Lord has gone to prepare for us. We rob ourselves greatly when we try to reduce heaven to a mere state of ecstatic feeling. We need the cheer which comes of having the eye of faith fixed on the better country."

Such a certainty of an inheritance that is real and that cannot fade away goes far to mitigate the pangs which come of the fires and floods and disasters and frauds which so often dispossess God's people of their earthly possessions; for we know that the things seen are temporal, but the things not seen are eternal, and they are only a few heart-beats away.

Resurrection

Because a yellow daffodil
Has lifted late its fragile cup
To catch the sunlight on a hill,
I will look up.

Because a trusting bird has come
Back to a barren bough he had
In former years, and found it home,
I will be glad.

Because at early dawn of day
From a new grave one troubled
An angel rolled the stone away,
My soul must sing.

The Resurrection and the Life—
Still Easter hath its gift to give;
Though earth be full of war and
strife,
Great Love must live.

Earth's Awakening

The rain is over and gone,
The flowers appear on the earth;
The time of the singing of birds is come,
And the voice of the turtle is heard in our land;
The fig tree ripeth her green figs,
And the vines are in blossom.
They give forth their fragrance.
Solomon's Song 2:11-12.

Mop And Duster Talk

What a glorious orgy house-cleaning is! We'd forget all about a lot of items of property that we own if they were not dragged from their lurking places at least once a year. It is part of the spring ritual and carries back to the far off days when our ancestresses raked the piles of dry leaves that they slept on all winter from their dens and caves, and prepared to take up residence in their summer homes in the tree tops.

When one considers the rapidly recurring rummage sales, and salvage and Salvation Army collections, it's amazing what a lot of junk still remains tucked away under the eaves crying out to be released for war purposes. It is necessary, quite often to steel one's heart against sentiment when we come across a package of Aunt Nellie's beaux in tinfoil or Granddad's broken specs, or the old alarm clocks. Those clocks were collected by Junior from the neighbours to build motors for model aeroplanes. The toy planes are here too. Wonder if we'd better save them until Junior gets home? He's flying a real plane in Africa now.

The Queen Is Right

What is needed to put this old world on an even keel and keep it there is applied Christianity. Christianity that is practised and taught at home and carried from there to school, to factory and mill and foundry; to shop and business office; to playground and bowling alley; to club meetings; to pool room and barber shop and beverage room; to council meeting and to church service.

If all men and women, before leaving home this morning and every morning, to work in war plants or any other industry, had first sought guidance and blessing on their day, resolving to follow the Golden Rule, would there be any talk of strikes? Would there be the flaring up of jealousy, the feeling that they were being discriminated against by the foreman or someone else that engenders the "strike" motive? The foreman, the management, the office staff and all the shareholders would be working by the Golden Rule, too. The Golden Rule is the lever that will raise the world to an upright position.

The first problem would seem, how to get Christianity into the home. New light on this all-important point is much to be desired. At the same time, everybody knows the Golden Rule and can be saved from there NOW.

"The poor old world—so full of greed, strife, envy, malice, blindness—Needs, more than ever, Christ; His cross could flood the earth with loving kindness."
—L.G.M.

Sunday School Lesson

SUNDAY, APRIL 25th

The Risen Lord

St. John 20:1-17.

GOLDEN TEXT

He is risen.—St. Mark 16:6.

The Historical Setting
The resurrection of Our Lord took place very early on the first day of the week. The Jewish day

was from sunset to sunset. Somewhere between the sunset of what we call Saturday and the sunrise of what we call Sunday, Christ arose. The tomb was empty when visited by Mary and the other women early in the morning (Mark 16:2-4).

An Introduction to The Lesson

Is there, in all history, a more thrilling incident recorded than that of the amazed followers of Jesus Christ when they found the tomb empty, where, only a few days before, they had reverently and sorrowfully laid away the body of their Lord? The imperial scene and the Roman guard, guaranteed no human interference, no possibility of rifling that sepulchre. Yet, in spite of every precaution, the great stone that covered the entrance was rolled back, and the crypt was found to be vacant. No wonder the disciples themselves, who had failed to understand His promise that He would rise again the third day, were in a quandary as to what had taken place until the evidence of His resurrection

became so overwhelming that they could no longer doubt. They ate and drank with Him after He rose from the dead (Acts 10:41) and had absolute proof that He was indeed the very same Jesus they had known during the years of His ministry among them. — (John 20:27).

The Heart of the Lesson

The resurrection of Our Lord Jesus is one of the best attested facts of ancient history, as Bushnell has well said. The circumstances connected with it were such as to convince the most unbelieving of His disciples. The body was now energized by resurrection life, but its identity was plainly established. Christ was risen and redemption was an accomplished fact.—(1st Cor. 15.)

HOW MUCH Did You Save LAST YEAR?

One of these days a man will call on you to talk to you about saving money. The caller will be one of your neighbors, or a man from your nearest town who is likely well known to you.

He is asking you to save money when he asks you to buy a Victory Bond. He is not asking you to give money to anybody or anything.

You save money when you buy a Victory Bond . . . and you lend your money to Canada to help win the war. The money you save is yours. You will get it back later on, and have it to do anything you wish with it. And Canada will pay you 3% interest on your savings every year until the loan is paid back to you.

TAKE A FEW MINUTES TO FIGURE OUT HOW YOU ARE GETTING ALONG

This is something that every man should do now and then.

You will see how you are getting along by comparing savings with earnings. It's what you save that counts.

Perhaps you will say you saved all you could. Did you? Remember you are asking yourself questions. You are not getting figures to show anyone but yourself. Can you figure out how you can save more?

A sure way to save money is to save it in small sums—as you get it. Victory Bonds—which can be paid for in small instalments covering a six-months' period—provide a convenient method of carrying out a savings programme. Your Victory Bond salesman will tell you all particulars.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half yearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest.

A Victory Bond is an asset more readily converted into cash than any other security.

Mothers' Club

The Mothers' Club met on Thursday last at the home of Mrs. Geo. DeQuetteville, Main street west, with Mrs. Norman Morningstar presiding in the absence of Mrs. H. Lambert, the president. There was a good attendance of mothers and children.

Mrs. L. A. Bromley, Agent of the I.O.D.E. was guest speaker for the afternoon and gave a very timely talk on "War Time Problems In The Home."

A layette was donated to the I.O.D.E. for the British War Victims fund and \$5.00 was contributed to Mrs. "Buddy" Shafer for ditty bags.

Hostess for the afternoon were Mrs. H. Thompson, Mrs. Jas. Fisher and Mrs. Robert Walters.

Parents' Night At Beach School

In addition to the customary display of academic work usually on exhibition for Parents' Night, there was a wonderful showing of knitted articles and sewing done by the pupils, to be donated to one of the Foreign Relief Agencies.

The children had started this project by selling Christmas Cards, and from the proceeds, yarn and materials for sewing were purchased by the teachers. Through the year, under the careful supervision of their teachers, the children knitted and sewed, and the results were most gratifying to the teachers, and amazing to the parents and friends who attended Parents' Night and saw the display.

Among the knitted articles, we noticed two scarves, done entirely by boys; 1 set for a 2-year-old, consisting of pants, sweater, and cap; 3 sets, one each for 6, 7, and 8 year old, of cap, mitts, sweater and scarf; 1 separate scarf, 2 baby jackets; 3 bonnets, 3 pr. mitts, and 2 pr. booties.

In the sewing, we saw 14 flannellette baby sacques, 4 or 5 flannellette nighties, 2 gertrudes, and 5 pr. panties for child about 3 years old. From scraps of material, a small crib quilt was fashioned, likewise very carefully sewn.

The boys had a very creditable display of wooden bookends, in "Scottie-Dog" design. They showed real skill and the work was very nicely finished.

Both teachers and children are to be highly commended, first for the thought that started the project and again, for the very nice work accomplished by the pupils.

Around The GRIMSBY High School

Last Friday afternoon, the G.H.S. Honour Roll was presented to the school. Brigadier A. Armand Smith, and Miss Beulah Martin were the guest speakers. (Details on Page 1.) In the evening, the students and their friends enjoyed a dance. Novelty and elimination dances were the highlight of the evening.

The Chinese War Relief Drive, under the auspices of the Girls Section of the G.H.S. Cadet Corps, realized \$173.39 on Saturday afternoon. The canvassers were: Connie DeLaplante, Eleanor Dymond, Doug. Dick, (Platoon Officers), Alison Jeffries, Eileen McPherson, Margaret McVicar, Barbara Boehm, Joan Grieg, Marie LePage, Jean Simenon, Dorothy Cruik, Francis Dafeo, Lois Rahn, Helen Slade, Louise Knight, Anne Marie Passer, Madeleine Pogachar, Philip Thompson, Muriel Gracey, Merl Betzner, Ruth Lindensmith, Suzanne Pasche, Betty Kand, Nancy Gordon, Marguerite Haywood.

Tuesday afternoon, April 20th, forty boys and twenty girls under the direction of Miss G. Calder, and Mr. C. King tried their First Aid Examination in the school, all of whom were successful. Colonel S. L. Spicer, representative of the St. Johns Ambulance Association of Canada; Sgt. Major Sellings, and Cpl. Yates, gave the Examination to the candidates. Col. Spicer, commenting on the excellent results, complimented the teachers and pupils on the high standard of work which was demonstrated.

Many Thanks

To the Editor:

As we did not have the opportunity to personally thank all our many friends in Grimsby for their many kind acts and gifts prior to our leaving town, we would appreciate very gratefully the opportunity to do so through the medium of your worthy paper, to which we will look forward with keen interest than ever, as it will be a valuable source of information and pleasure to us in our new home.

Upon leaving Grimsby we fully appreciate the fact that we have left behind a good many true and esteemed friends whose memories will not soon be forgotten; among some of them being Mr. P. V. Smith and staff of the High School, Mr. Richardson, minister of Grimsby Baptist Church, and the different ladies' organizations attached to it, the Canadian Legion, the Robinson Street S. Branch of the Local Red Cross, the Rebekahs, and many others.

To those many kind people may we humbly offer our sincere thanks from the bottom of our hearts. Thanking you, Mr. Editor, for your space in your paper.

Mr. and Mrs. W. Liles and Son.

If you can talk tough you will make a fine top sergeant or break into the movies.

Women's Institute

The Grimsby Women's Institute held their Past Presidents' and Grandmothers' meeting at the home of Mrs. E. Sutherland, Robinson St. S., on Tuesday evening. In the absence of our President, Mrs. Geo. Warner, Mrs. Robert Walters presided.

A nominating committee was appointed, with Mrs. Andrew Stevenson as Convener, assisted by Mrs. H. Farrell, Mrs. Jas. Fisher, and Mrs. Wilcox. The May meeting is the Annual Meeting and election of officers, and is to be held at the home of Mrs. Ed. Farewell, on Robinson St. This will also be an evening meeting.

A Penny sale was planned, to be held on May 6th, in the evening, at the home of Mrs. Ed. Farewell, Robinson St. All members are asked to see that articles are sent in, wrapped, to any member on the committee for the evening.

Wool is to be purchased for our soldier-boys.

Mrs. Frank Randall, of Fruitland, was convener of the evening, with Mrs. Larry Farrell, Mrs. Robt. Walters, Mrs. Andrew Stevenson, and Mr. Lester Larsen assisting.

Those contributing to an interesting program were Mrs. A. Hermiston, who gave a reading, Miss Fay Laren, a solo, Mrs. Mary Twenney a piano solo, and Miss Isabel Stevenson, a solo.

Mrs. Larsen gave a reading prepared by Mrs. F. Randal, entitled "Grandmother's Ideas". A social half-hour brought a most enjoyable evening to a close.

Obituary

MINNIE LOUISE CALLANDAR

After a lingering illness, the death occurred on Monday morning of Minnie Louise Callandar, relict of the late John Callandar, in her 82nd year.

Deceased lady was the mother of Mrs. Stanley J. Way, of Galt, for many years a resident of Grimsby. Besides her daughter she leaves a sister, Mrs. J. B. Spencer of Ottawa and a brother, Harvey W. Read of Vancouver.

Remains rested at the Stonehouse Funeral Home until Tuesday when they were taken to Clinton for service and burial.

JOHN R. LANE

Legion honours were paid by members of West Lincoln branch on Sunday afternoon at the funeral of one of their comrades, John Russell Lane, Fairview avenue.

Mr. Lane was a retired C.P.R. train dispatcher with 42 years' service and had been stationed at different times, at Smith's Falls, Ont., Farnham, Que., and Calgary, Alta. He retired from active duty in 1929.

During the Great War he served overseas as a sergeant with the 13th Light Railway Operating Company. While in France with the army of occupation following the armistice he lost a leg through an accidental gunshot wound. On his return he resumed work with the C.P.R.

He was a member of West Lincoln branch of the War Amputation of Canada. An Active member of Trinity United Church, he had served on the board.

Besides his wife, Victoria Lane, he is survived by a daughter, Mrs. J. H. Davis, Vernon, B.C., who was enroute to Grimsby at the time of her father's death; one son, Russell H. Lane, Calgary, and a brother, George Lane of Tillsonburg.

Funeral service was held from the Stonehouse Funeral Home on Sunday afternoon with Rev. W. J. Watt officiating. Interment took place in Queen's Lawn cemetery, Rev. George Taylor-Munro conducting the Legion service. Bugler Wally Phelps sounded the Last Post and Reveille.

Casket bearers were Vernon Tuck, L.A. Bromley, Watson McPherson, David Thompson, Herbert L. Lindensmith, Samuel Harris.

W. RILEY

The funeral of John Wesley Riley took place from his late home, lot 1, Con. 9, Euphemia, on Sunday, March 28th, 1943.

The service was conducted by Rev. A. CDixon, of Southwell Baptist church, assisted by Rev. Arnold Gingham, of Orford Mennonite church.

Interment was made in Alvinston cemetery.

Deceased was born in Adelaide Township 22 years ago. He lived for some time in Rallicet Township, where he married Adelaide Smith, of Grimsby, who predeceased him in 1931. He left Rallicet, moving to Euphemia Township, near London, in January, 1932.

He deceased was a member of the Euphemia Baptist church and served as a deacon for a number of years.

He leaves to mourn his death,

A.R.P. Ready At Ford Plant

READY for any emergency, the A.R.P. organization at the great war plant of Ford of Canada at Windsor numbers approximately 1,000 men. They have been trained to fight incendiaries, render first aid and to cope generally with eventualities should the Windsor industrial area ever become the target for enemy bombers. Ford workers Mike Delaney, left, and Charles MacLennan, right, demonstrate the equipment provided. In the background is one of the 30 A.R.P. lockers located at strategic positions throughout the plant. Each locker contains additional first aid supplies and sufficient of all equipment to completely outfit five teams of three men each.

TENDERS FOR COAL and COKE
Federal Buildings — Province of Ontario

SEALED Tenders addressed to the undersigned and endorsed "Tender for Coal," will be received until 3 P.M. (E.D.S.T.), Thursday, April 29, 1943, for the supply of coal and coke for the Dominion Buildings throughout the Province of Ontario.

Forms of tender with specifications and conditions attached can be obtained from the Purchasing Agent, Department of Public Works, Ottawa; and the Supervising Architect, 36 Adelaide St. East, Toronto, Ont.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto. Coal dealers' licence numbers must be given when tendering.

The Department reserves the right to demand from any successful tenderer, before awarding the order, a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque, if required to make up an odd amount.

Such security will serve as a guarantee for the proper fulfilment of the contract.

By order,

J. M. SOMERVILLE,
Secretary.

Department of Public Works,
Ottawa, April 15, 1943.

JUST WHAT IS

registered as to both principal and interest. It bears no interest coupons. The Government pays the interest on these Bonds by mailing a cheque each half year to the registered owner. The main difference between "Bearer" and "Registered" Bonds is that the latter affords better protection in case the Bonds should be lost, stolen or destroyed.

Since Bearer Bonds Are Easily Sold By Anyone, How Can They Be Kept Safe? The best way is to keep them in a safety deposit box at a bank. If the bond holder has no deposit box, any bank will keep the Bonds for a small annual charge. Similar arrangements also can be made with many trust and loan companies. If these methods are not convenient, the Bonds should be kept in the safest possible place at home or at place of business. A record of the serial numbers of the Bonds should be kept in another safe place. These numbers may prove of value if the Bonds are lost, stolen, or destroyed. Registered Bonds are the safest kind to own if the bond holder must keep Bonds at home or at place of business.

How Is Interest Paid On Victory Bonds? Interest on Victory Bonds is paid every half year, on the dates clearly shown on each Bond. Bonds in bearer form and Bonds registered as to principal both carry interest coupons which fall due, one every six months. On each interest date, the bond holder cuts off the proper coupon, takes it to any bank, and gets cash for it. There is no charge for this service. Interest coupons are not attached to Bonds registered as to both principal and interest. When half-yearly interest on these Bonds falls due, the Government mails a cheque for the amount due to the person in whose name the Bond is registered. This cheque can be cashed without charge at any bank.

Should All Victory Bonds Be Held Until After The War? Yes—if at all possible. Victory Bonds are the property of the owner who is free to sell them at any time who to win this war, Canada needs every dollar her citizens can scrape together. In buying Bonds, Canadians are helping to win the war. If they sell them, they withdraw that help. Again everyone will want—and some may need—a reserve of savings for post-war use. Except in cases of dire need, it is a patriotic duty—and in the best interests of the bond holder—to "keep the dollars in uniform" for the duration.

"BOBBY" ALLDRICK

Advertising, bookkeeping, and all languages! Eaton's have sent "Mag's" to boys here. Among others received were Modern Mechanics, Esquires, Downbeat, Saturday Evening Post, etc. And, by the way, I have received several sports' clippings from Audrey Palmer. If you can get in touch with Doug Lipsitt, please thank him for his interesting letters. Sorry I can't answer all. H-m-m-m. Sleeping bag arrived o.k. I had two blankets, but don't need 'em, so let our "Combine" cut for 'em.

7 Jan. 1943.

Dear Mom and Dad,—

Our mail has fallen off to almost nothing. I have only heard from Switzerland lately. All Canucks here have decided to start things rolling for their return. We have a committee who are to contact certain organizations at home, such as the Canadian Legion, P.O.W. Relief Association, Education Committees, etc. We have two objects in view—to prepare ourselves here for our future occupations, and to have those jobs ready for us when we return. You will probably hear about it through P.O.W.R.A., Montreal. Both parcels of 1900 "cigs." for Danny and me arrived together, two days before Christmas. Thanks a lot for both of us.

We are struggling to make a rink, but facilities are poor, also skating; hardly worthwhile for two months. I'll need more underwear soon; I'm not much good at patching and darning, but I'm improving. We don't waste much here, as you can imagine. I've made a pair of slippers from odds and ends of leather from old clogs. The cloth around my last parcel was used as a tablecloth for Christmas, and now I've made two pillowcases from it. Some fellows have collected bits of wool from old socks and sweaters to knit blankets. I haven't had any colds as yet, but you can be sure I'm ready to take care of myself in case I haven't heard from Wes McKnight yet. Well, so long for now. Give my best to Mrs. Moore, Buddy and

Dick, Cotton's and all who remember me.

7 Feb., 1943.

Dear Mom and Dad,—

Mail began to arrive this week. Received Christmas cards from Mrs. C. Moore, Hugh and Helen Thompson, Peg, and you. Also your letter of Nov. 28 with list of Nov. parcel. I might say that there are a lot of lads receiving letters regarding these new parcels. Some

say that, as well as the quarterly clothing parcel, they can also send an 8 lb. Food. Others, that it is a single combined parcel. All kinds of food have been sent already—peanut butter, coffee, sugar and saccharine, various meats. However, you can only try. Solid foods are perhaps more important than brews for us. If possible, bully beef, or tinned ham, etc. You'll know best. Recently, I've had two or three "cig." parcels (150) and

three very good books from a Dudley Nesbitt, Esq., England. Maybe I'm "adopted". I will certainly appreciate slippers, thank you very much.

12 Feb., 1943.

Dear Mom and Dad,—

Received Nov. clothing parcel o.k. Thanks a million for Food. Give Jean my sincere thanks for socks. Dan is very grateful to you for thinking of him. Suggest you plug up neck of tooth powder tin to prevent spilling. Shoes and slippers swell! Keatings just in time: "Them Durn Varmints" make life miserable. No parcel from U.S. yet but many have arrived lately. Just been to see our production of "Night Must Fall". It was excellent. Work, keep yourselves fit, and don't work too hard.

So-long,

Bob.

WHO PAYS

?

Messrs. Jones and Messrs. Brown both make shoes — shoes exactly similar in quality and style. Messrs. Jones do not advertise. Messrs. Brown do, and sell a very much greater quantity than Messrs. Jones in consequence. WHO PAYS FOR MESSRS. BROWN'S ADVERTISING?

Not Messrs. Brown — because their profit — on the quantity sold—is Messrs. Jones' profit multiplied many times. Not the public — because they get, for \$4.00, shoes of a quality for which Messrs. Jones charge \$4.50. Not the retailer — because the profit is the same in both cases.

No one pays for advertising. It is an economy — not a charge. It does for the operation of selling what Messrs. Brown's machinery does for the operation of making shoes—speeds it up, and multiplies its efficiency. It makes possible big-scale production and so reduces costs.

FIREMEN BATTLE

Lawrie, Town Superintendent of Works.

Val Tisdale, town teamster arrived at the barn almost as soon as the fire department and experienced very little difficulty in getting the town's crack team of horses out to safety.

Two lines of over 1,000 feet of hose were laid and the fire ladders had a tough four hour struggle but managed to keep the blaze confined to the one building. The upstairs portion of the side of the building contained several bales of hay and straw and this created a wall of smoke that made it almost impossible at times for the firemen to get anywhere near the actual fire.

The building and all contents were fully covered with insurance. The origin of the blaze is not definitely known.

Despite the fact that the rain was falling in torrents and a brisk wind was blowing there was never at any time any danger of the blaze spreading to other buildings as the firemen had it in check all the time despite the fact that they were four hours in extinguishing it.

At four o'clock Mrs. Charles Laing, Elm Street served the fire boys with hot coffee which they appreciated very much.

On Tuesday Mayor Johnson on behalf of the corporation had Clerk G. G. Bourne forward a cheque for \$5. to Mrs. MacMillan, as a slight appreciation of her efforts in sounding the fire alarm.

WATER CONSUMPTION

The pump house men were often unable to tell how much was in reservoir.

Mayor Johnson said it would be necessary to secure permission from Hydro to put wires on their poles. This permission will be sought and an electrician will be asked to submit definite estimate on cost of the job for presentation at next meeting.

A report from Provincial Department of Health showed that tests on Grimsby water showed good quality on analysis.

A. N. Henderson, superintendent was given a pay increase of \$2 a week, bringing his pay to the same figure as the town foreman—\$27 a week. Other employees at pump house were increased from \$25 a week to \$26 a week.

Increased pumping for March, superintendent Henderson reported, was caused through back washing owing to muddy water.

General accounts for \$207.42 were passed for payment.

C. M. Hourigan, Kidd Avenue, given \$1.22 refund for 27 days overpaid water rates.

JUST ASK DOROTHY

down within reach of an L.A.C.'s wage; everything is quite expensive.

I am much farther south than where Bill Gledhill landed; ask Dot Shelton where Hughie spent his last leave before leaving for Canada and you will know just where we are.

Life is very easy just now, but we will soon be posted to various squadrons then will have to get down to our jobs again. Bark and I went down to the "Y" to get a hard ball and gloves to play catch, then went to the flicks (movies from the Y). Get my uniform from the cleaners to-morrow so will look clean around for a dance to-morrow evening.

Had a sort of queer feeling when we waved good-bye to the Statue of Liberty but it was soon gone, and everything is O.K. If and when we get a forty-eight we are going to Scotland to explore some of the beautiful little towns along the Clyde.

I'm really in the "pink" and hope you are too. Write soon and often. Lots of love, Doug.

three years to turn out a full fledged Able Bodied Seaman, and if men were sent to sea without the proper training there was just one or two things about it, the lads were either attempting suicide or else we were attempting murder in sending them to sea.

Canada has the greatest length of sea shore of any nation in the world, yet up to the time this war broke out we had the smallest navy in the world, with the possible exception of Switzerland, which has no navy at all.

A convoy crossing the Atlantic can travel no faster than the slowest boat. A large convoy, merchant ships and fighting ships, will cover an area of ocean 100 miles square. In that area at all times will be innumerable submarines trying to make an attack. These subs have a great advantage over the convoy boats as they now have a speed on the surface two or more miles faster than the fastest boat in the convoy. Also they will lay five miles off the convoy and fire a torpedo in the general direction of the convoy and still have a 14 mile target to fire at as the convoy will be approximately that long.

Highland dancing by the Sawyer sisters and comedy stunts directed by Lion Carm Millyard brought a very fine evening to a close.

Lion Dr. McIntyre was the Chairman in charge of the evening and he is to be congratulated on the excellent program provided.

HONOR ROLL

the common good. We live in a country that has all the privileges of good nutrition, good health, sound learning and sound thinking. This freedom for which our former pupils and graduates are fighting is the freedom that enables us to observe the moral law with all the energy and enthusiasm we can muster. It is for us to see that their sacrifice may not be in vain.

Earl J. Marsh, chairman of the Board of Education, said there are now probably more than 215 names to be affixed to the Roll. "The Roll of Honour will be given a place of prominence so that all who enter this building may see these names," he said.

The guest speaker for the afternoon, Brigadier Armand Smith, M.C., of Winona, who was introduced by Ted McNinch, recalling his connection with Grimsby and his school days, first at Lake Lodge and then at Grimsby High School, said that even when in France with his Brigade before the fall of Paris that connection was not severed. He found attached to his staff a son of Mayor E. S. Johnson. Then during his sojourn in London he came in contact with Dr. Gordon A. Sinclair. That was it all. On returning to Canada he went to Christie street hospital for an operation necessitated by an injury received in England and there he found the surgeon to be none other than Dr. Gordon Dale, once a fellow student at Grimsby High School. Dr. Dale remarked "This is the second time I have had your life in my hands. Remember when I knocked you out playing football?"

With touching anecdotes culled from personal experience the Brigadier summed up the outstanding characteristics of Britons under stress of war as (1) sympathy and humanity; (2) honesty; (3) courage, chivalry, bravery; and (4) neatness, cheerfulness in every-day life. These virtues, he said, were typical of the majority of people in Britain.

As the war proceeds on its course, Brigadier Smith warned, we must be prepared for the great shocks that are to come, when the Canadian casualty lists grow long. "Most of you," he told the pupils, "are too young to take up arms; but you cannot let your fathers, brothers and mothers who are in this war, down. It depends on you this war, down. It depends on you what kind of country Canada is after the war. Yours is the great opportunity to be real citizens of Canada and make it a good place to live in."

George, the Brigadier referred to, was one of the veterans of Christendom. Ascalon, he mentioned the

of Christianity. "I hope you will never forget," he went on, "that it was Britain that stood between Christianity and disaster. The Battle of Britain saved the world that would now have been under the heel of Hitler." Speaking of the King and Queen he said, "I had the honour of serving Their Majesties in a personal way. They are wonderful, in their character, and in the tremendous amount of work that they do."

In appreciation for his work on the Roll of Honour, Don Pettit was presented with an Art Book by the Brigadier, on behalf of Lincoln Loyalist Chapter.

Mayor Johnson spoke briefly on the significance of the flag of St. George and its long connection with our fighting men. An entertaining sketch of life in wartime Britain was given by Miss Beulah Martin of Vineland who, while on a vacation trip to England just before the outbreak of hostilities, found herself an involuntary resident there for two years.

In addition to choruses sung by the pupils, conducted by Ted Konkle, who was also cheer leader, entertainment was provided by Leslie Pope in a poem that told the story of the evacuation of Dunkirk, "The Little Boats of Britain." Mrs. J. Shields sang Elgar's Land of Hope and Glory, the pupils joining in the refrain. Miss Betty Shivas acted as accompanist for the musical numbers. The 24th Psalm, read by Jack Pettit, set the tone for the afternoon's program.

On the platform with Mrs. Johnson were Mrs. A. V. Catton, Mrs. P. V. Smith, Miss Beulah Martin, Mr. L. A. MBromley, Mrs. Geo. Warner, Mrs. Don Beamer, Mrs. R. N. Wolfenden, Mrs. H. C. Johnson, Mrs. Thomas Gammage, Miss Maisie Cullingford, Brigadier Armand and Mrs. Smith, Mayor Johnson, J. R. Gibbs, L. A. Bromley, E. J. Marsh, Rev. B. A. O'Donnell, Rev. Geo. Taylor-Munro, Rev. J. W. Watt, and Dr. Neil M. Leckie.

Colour parties from West Lincoln Branch, Canadian Legion, Guides and Scouts assisted in the program. West Lincoln Branch was represented by W. J. Schwab, Howard Caudwell, Chas. Mason, Sr., and Ed. Rooker. The Guides' Colour Party consisted of Marilyn Millyard, Hazel Twoock, Isabel Stevenson, Geraldine Marsh, Catharine Morrison, and Barbara Bromley. In the Scout party were Joe Small, Stanley Drozda, Leroy Zimmerman, John Nasch, Teddy Greig, Allan Baisley and Douglas Bedford.

3,509 Applications Made For Sugar

There are not very many people in West Lincoln who have neglected to make an application for sugar for canning purposes.

Thursday last was the final day upon which application could be made and Secretary Hummel of the local Rationing Board reports that 3,509 applications were made.

Each application was for an average of a little better than three persons or an approximate total of 11,640 people. The local rationing office issued 11,600 ration books, so there cannot be many who have not applied for sugar.

Mrs. Charles P. Coxall, our convener for comforts, has just despatched her first consignment of woollen comforts to headquarters.

30 pair socks.
19 pair sea boot stockings.
16 turtle-neck tuck-ins.
14 seaman's caps
4 square-neck sleeveless sweaters.
4 turtle-neck pullovers, long sleeves.
2 pair two-way mitts.

The committee's best thanks to Mrs. Coxall and her band of workers.

Mrs. "Buddy" Shafer has also just sent up to headquarters her first consignment of filled Ditty Bags. The number was 48 and not more than 8 or 10 to a carton.

These will go out to the ports for distribution to the poor shipwrecked ones. A treasure indeed. We are sure the filling of those bags was a work of love. Some day you will receive letters from the recipients. Do let Mrs. Shafer know at once, please.

The draw for the three prizes, which have been so kindly donated, will be made on the evening of Wednesday, April 28th, at the conclusion of the Bridge party which is being held at the Village Inn by the Women's Committee.

The selling of the tickets for the draw is in the capable hands of Mrs. "Buddy" Shafer. Have you bought your half dozen yet and wondered which prize you may draw?
